Specialist Qualification in Travel Data Recorders

This workshop teaches product-specific knowledge about the DEUTA REDBOX® travel data recorders used in a customer project. Participants will gain an overview of how the DEUTA REDBOX® works. Further content includes using the service web interface, loading software and reading out travel data.

Basic knowledge of data recorders is desirable but is not a precondition. This seminar has been specially designed for commissioning specialists, personnel from vehicle maintenance and service technicians.

The Workshop will deal with the following themes:

- **Installation**
- **Commissioning**
- **Preventive and corrective maintenance**

Information

Price of Workshop

1,400.00 euros/person plus Vat including snacks, dinner and beverages during the Workshop at the DEUTA Academy. 3,750.00 euros for in-house training at the customer's premises (throughout Germany/max. 10 participants).

Workshop dates

You find the current dates on our website. The number of participants is limited so that we can deal intensively with individual questions. Applications are dealt with on a "first come, first served" basis.

Payment

The price of the seminar is due on receipt of the invoice.

Cancellation

In the case of cancellation up to 10 working days before the seminar is due to begin, we will charge 120.00 EUR. After this time, the full seminar fee is due. If a seminar needs to be cancelled by us for unforeseen reasons, including at short notice, we will inform the participants immediately. Fees which have been paid will be refunded in such a case.

Specialist Qualification in Travel Data Recorders

DEUTA Academy

Our Expertise

Since 1905 the name DEUTA-WERKE GmbH has been representing expertise in the areas of sensor technology, travel data recording and visualisation. We are delighted to pass this knowledge on to our customers.

Technological developments are advancing at an ever faster pace today which has led us to offer training for the employees of our rail customers with **practical, hands-on seminars for operators**. The demands made on users are constantly increasing. New forms of organisation within companies require employees to be qualified, flexible and able to deal with challenges quickly. State-of-the-art knowledge is the precondition for certification and new specifications in safety technology.

The DEUTA Academy training programme is geared closely towards the market requirements of our customers. **Qualification measures, customer training and hands-on workshops** form an integrated, high-quality training concept.

Our participants enjoy the benefits of our competence and knowledge networks.
