»DEUTA MouseTrust® - for safe mouse operation up to SIL3«

MouseTrust® makes the computer mouse, the main control element for operators truly safe.

Safety relevant operating functions in the workflow are defined. If there is an operation event within a configured MouseTrust® area, the operator uses the additional Trust Button and confirms the selected operation. MouseTrust® is based on the proven DEUTA IconTrust® technology.

»Certified safety with time and cost savings«

IconTrust® Safety

Security

Ergonomics / Flexibility

- Display and input up to SIL3 (in accordance with IEC 61508)
- Fully technically monitored
- A manual availability check is unnecessary ("lamp test")
- Proven technology – more than 10 years
- Long-term availability in railway applications

- IconTrust® bundles all safety measures
- Diverse and separate from visualisation and system
- Software or operating system update without affecting safety

- Intuitive operation and monitoring
- Process supported operator intervention unnecessary
- Rapid change between revision statuses or variants
- Changes can be remotely imported, no rewiring or reassembly required
- Non-SIL content can be changed at any time without affecting safety
